Interior Wood Stains

BEST LOOK

- Latest technology to deliver rich color & maximum protection
- Oil-based stains
- Blends color over multiple woods
- Excellent for wood graining

Available finishes:

- Oil Varnishes & polyurethane
- Water-based polyurethane
- Oil sanding sealer

Industrial Enamels

Do it Best

Oil-Based Industrial Enamel

- Provides moderate to severe corrosion resistance
- Encapsulates surface rust
- Implement, OSHA, & ANSI color standards

Waterborne DTM (Direct-to-Metal)

- Maximum durability for sheen & color retention
- Excellent adhesion
- Implement, OSHA, & ANSI color standards
- Excellent for metal buildings & low to moderate industrial applications

Interior & Exterior Primers

Do it Best

Primers are a preferable coating before painting. Primers ensure better adhesion of paint to surface, increases paint durability, & provides protection for the surface material.

- Interior latex primers: Good, better, best quality
- Latex PVA: Good holdout at economy price
- Latex Wall & Wood
 - Excellent on all substrates & bare wall
 - Power sands in 20 minutes
 - Excellent holdout for superior topcoat performance
- Interior/Exterior Latex Stainblocker
 - Holds back tough stains
- Oil-Based Exterior
 - Maximum tannin bleed resistance
- Latex Exterior
 - Can be used on most surfaces (wood, concrete, vinyls & aluminum)
